Repairs to Broadway Pedestrian Plaza Overhead at US Bank Arena and Great American Ballpark

WHAT/WHEN: Crews of Western Restoration and Waterproofing Company will begin work **May 1, 2005** removing and replacing existing expansion joint systems, re-coating existing and installing new waterproofing membrane, sealing existing precast panels, and performing other maintenance work on the Plaza between U.S. Bank Arena and Great American Ballpark. **The company should finish this work by August 28.** Additional work will involve cleaning and spot painting portions of the structural steel, repairing concrete piers below the Plaza, and installations on structural members. Crews will maintain pedestrian traffic on the Plaza and halt work during special events at the abutting venues. Pedestrians (walkers and runners) should be alert in this area, as the work zone will shift regularly.

WHERE: **Broadway Pedestrian Plaza Overhead at US Bank Arena and Great American Ballpark**

The Department of Transportation and Engineering oversees the rehabilitation and improvement of streets in the City of Cincinnati. The Department also does transportation planning, design, engineering services, structural and geotechnical services, right of way regulation and construction management. It is the clearinghouse for all City and regional transportation functions, and serves as a liaison to the Southwest Ohio Regional Transit Authority. Visit us at <http://www.cincinnati-oh.gov/transeng/pages/-6738/> for additional information and construction activity.
